

Individuals in a free market economy must have the ability choose products and services from companies they want to do business with and should not be limited to choose from a few hand selected that the govenrment puts in place. Freedom of choice is what sets our economy apart from the rest of the world. It is what makes America unique.

Do not stifle America's economy by passing regulations that limit the ability to provide service to the lobbists with the biggest monetary contributions. Let the market do it's work allowing the consumers to decide which providers they think provide the best service.
